# We build on your strengths.

- Developing ad hoc software to innovate business process inside your organization.
- Adopting and customizing newest technology trends (such as IoT and AI) in a pragmatic and useful way.
- Building native and cross platform applications to boost your digital presence.
- Partnering up with strong players to create cross functional competences in technology and services.
- Reading and digging into your business with proficient analysts with domain specific approach.

# Our Group: integrated competences

[Omega Software](#): located in Zagreb, specialised in **end to end software business applications** and platforms for public services and private corporations.

[Leda Lighting](#): located in Zagreb, family owned producer for **custom led lighting production** on the basis of a pre-defined project for which lights are produced accordingly, all around EU.

[2Click Solutions Hub](#): located in Milano, Ho Chi Minh City, software development company and business analysis in the area of **IoT and Machine Learning** applied to public projects and private business.

Technical Leader → EU offices Located

Remote Management of Developers

## STRATEGIC PARTNERS

Technology → Croatia

Services → Italy

## MARKETS

All our projects are from EU Zone

# Said about us.... Clients' and Partners' references

**...PRODUCT...** *"2ClickSolutions team was able to make me feel even more proud and confident about my product concept...they were able to figure out ways of improving functionalities and user experience by providing deep knowledge of key areas... also I had feeling they were as excited about the product as I was."* [Xristos Ikonomi, founder of Places Spots – London, UK](#)

**...USERS...** *"e-Visitor system built by 2ClickSolutions is very simple to use and this fits well with everyday activities of employees in tourism, unlike the old system."* [Maša Pavičić, Hotel Manager Hotel Mare Nostrum- Zadar, Croatia](#)

**...STRATEGIC PARTNERS...** *"2CS enabled us to scale up our development team in a short time with remote resources, which we were not able to achieve locally, while staying within or even below the budget"* [Marin Luetić, CTO of Omega Software- Zagreb, Croatia](#)

**...TECH EXPERTS...** *"By upgrading it to a state-of-the-art Web UI framework and refactoring business logic along the way, 2CS has brought new life into our MyCity application by making a far more usable and easier to maintain version of it."* [Vladimir Mašala, Project Lead, Open Data Store project- Dublin, Ireland](#)
